Safe playground in top quality ...

All edges on all our products - be they made of wood or polyethylene - are rounded.

All nut covers, foot rests etc. are made of impact-proof nylon that can take temperatures from -40°C til +110°C.

PAH free

All synthetic materials are checked for PAH by TÜV.

This product is controlled and approved by TÜV in accordance with the latest release of EN 1176.

All PoLedon-boards and tube elements are made of eco-friendly polyethylene (PE). Advantages: no maintenance - non-toxic - 100% recyclable - cracks and scratches do not affect the material's stability or longevity. All PoLedon-boards are UV-stabilized. 5 years guarantee against considerable fading. 10 years guarantee on material faults and manufacturing errors. Our polyethylene boards do not split, junctions between them are seamless. Neither fingers nor parts of clothing can get stuck or rip.

**20 years
guarantee**
